

FrameMaker-to-Acrobat TimeSavers 5.5 Settings

TimeSavers' functions are grouped into 7 tabs in the Settings dialog box:

- **Bmk Functions:** collapse bookmarks, merge separate number + title bookmarks, remove pgf numbering
- **Bmk Extraction:** quick-access bookmarks, extract figure/table/other bookmarks
- **Bmk Style:** style bookmarks by text or by level
- **Bmk Start:** change bookmark start, remove redundant bookmark start
- **Links/General:** link controls, shortcuts (turned on by default), advanced settings, named destinations, UnBloat
- **PDF Settings:** default initial view settings, document metadata, copyright, external references
- **Assistants:** turn Assistants on (Form, Navigation, Multimedia, Presentation, 3D)

The screenshot shows a dialog box titled "SP TimeSavers, FrameMaker Edition 5.5 - MicroType" with a close button in the top right corner. The dialog has seven tabs: "Bmk Functions", "Bmk Extraction", "Bmk Style", "Bmk Start", "Links / General", "PDF Settings", and "Assistants". The "Bmk Functions" tab is selected and active. It contains the following settings:

- Collapse bookmarks to: 2nd Level
- Merge separate number + title bookmarks
 - Add separator: :
 - Number bookmark under: 2 characters
 - Title bookmark over: 10 characters
 - Only bookmark level: 3 or lower
- Remove paragraph numbering, unless
 - Number + text is below: 3 characters
 - Bookmark text is below: 2 characters
 - Bookmark level is: 2 or lower
- Place custom bookmarks
 - At top, if prefix is: T\$
 - At bottom, if prefix is: B\$

At the bottom right of the dialog are three buttons: "Set", "Cancel", and "Help". At the bottom left, there is a status bar that reads "Specify settings for FrameMaker-to-Acrobat conversion". At the bottom right, there is a small box containing the text "NUM" and a double-slash icon.
