

Web links/bookmarks: e-mail messages, web/ftp, movies

FrameMaker Standard Hypertext Markers – Links

message URL hypertext markers:

- message URL `mailto:abc@gen.com` **Example**
can also include default values for fields, such as Subject, CC, Body **Example**
(various punctuation symbols have to be specified as hex values)
- message URL `http://www.gen.com` **Example**
- message URL `ftp://ftp.gen.com` **Example**

Hypertext Markers with TimeSavers 3.5 – Links, Bookmarks & Movies

Automatic filtering of special characters; web-related bookmarks; can refer to external text files in markers (to bypass the FrameMaker limit of 255 characters in marker text, or for maintenance purposes).

Links

- alert `~MailtoLink (abc@gen.com ?Subject=Suggest a new feature! ?Body=Ego ille quem, nosti apros et quidem pulcherrimos cepi: more text)` **Example**
- alert `~MailtoLink (message.txt) distill` **Example**
- alert `~MailtoLink (HTMLmessage.txt) distill` **Example** (formatted HTML message)
- alert `~httpLink (www.gen.com)` **Example**
Web address is automatically prefixed with `http://`
- alert `~ftpLink (ftp.gen.com/downloads)` **Example**
Web address is automatically prefixed with `ftp://`

Bookmarks

- alert `~MailtoBmk (feedback) /b1 (abc@gen.com ?Subject=Suggest a new feature! ?Body=Ego ille quem, nosti apros et quidem cepi: more text)`
- alert `~MailtoBmk (more feedback) /j2 (message.txt) distill`
- alert `~httpBmk (web updates) /P3 (www.microtype.com)`

Movies (links and/or bookmarks)

- alert `~MovieURLLink (MovieTitle) (www.microtype.com/sample.mov)` **Example**
(Title used for bookmark activation or page open, movie web address is automatically prefixed with `http://`)
- alert `~MovieBmk (Sample Movie) /W2 (MovieTitle)`
